Meeting Notes

May 22, 2021

1   Minutes

- Made Git Repository

- Use Python and Jupyter to process data

- Tested Live Share for VS Code

- Maybe try to use Deepnote to collaborate while on call, since Jupyter notebooks don't work using Live Share

- Looked over datasets

2   Action Items

- Pick 2 datasets (1 main, 1 supplementary) and do some preliminary analysis

    - Try to download data and open using Python or Jupyter
    - List your chosen datasets in the chat
